COMPLIMENTARY

This book or any portion thereof cannot be copied, microfilmed or reproduced for any commercial purpose. Data therein can, however, be used and published with acknowledgement of the sources.

Foreword

I am delighted to learn that Bangladesh Bureau of Statistics (BBS) has successfully completed the 'District Statistics 2011' under Medium-Term Budget Framework (MTBF). The initiative of publishing 'District Statistics 2011' has been undertaken considering the importance of district and upazila level data in the process of determining policy, strategy and decision-making. The basic aim of the activity is to publish the various priority statistical information and data relating to all the districts of Bangladesh. The data are collected from various upazilas belonging to a particular district.

The Government has been preparing and implementing various short, medium and long term plans and programs of development in all sectors of the country in order to realize the goals of Vision 2021. For any pragmatic approach in formulating and evaluating development plans and programs reliable statistics are indispensable. BBS has been performing the major responsibility of supplying comprehensive and accurate statistics at the national level.

The present government, in line with its commitment to decentralize administration, has declared upazila as the focal point of administration regenerating upazila parishad through participatory elections. However, upazila level official statistics are still very inadequate. It is praiseworthy that BBS has undertaken timely program of publishing 'District Statistics 2011' where data representing socio-economic characteristics of upazilas of all districts will be available. I am confident that this publication will be of invaluable help to the planners, administrators, researchers, field level officers as well as other users. Various government, non-government and international organizations closely related to policy formulation and implementation may also find this publication useful.

I sincerely thank Mr. Golam Mostafa Kamal, Director General, BBS for bringing out the publication of 'District Statistics 2011'. I hope that in future 'District Statistics' will be published in much more improved form to make it more effective and informative.

Dhaka
June, 2013

Md. Nojibur Rahman
Secretary
Statistics and Informatics Division
Ministry of Planning
Government of the People's Republic of Bangladesh

Preface

The 'District Statistics 2011' is mainly a compilation work of Bangladesh Bureau of Statistics (BBS). The decentralization policy of government has enhanced demand for timely, qualitative and comprehensive statistical data both for administrative and development requirements. The major regular publications of Bangladesh Bureau of Statistics like Statistical Pocketbook of Bangladesh, Statistical Yearbook of Bangladesh and Agricultural Yearbook of Bangladesh provide aggregate data mainly at the national and regional level. Data for smaller administrative unit like upazila often remains absent in such publications. The 'District Statistics 2011' emphasises to provide upazila level data.

The 'District Statistics 2011' provides both structural and flow-type information of almost all of the priority sectors of our national economy depending on data availability both from published and unpublished sources.

The publication of 'District Statistics 2011' would have not been feasible without the wholehearted co-operation of the various government, semi-government, autonomous, non-government offices and other organizations. In particular, the district and upazila level officials extended their total support and supplied all data. I like to express my sincere thanks to them and hope such co-operation will continue in future.

I am obliged and grateful to Mr. Md. Nojibur Rahman, Secretary, Statistics and Informatics Division (SID) for his enormous support and advice to prepare and to finalize this important publication. My sincere thanks also go to all officers of SID for their wholehearted support and sincere co-operation towards accomplishing this document.

I acknowledge the contributions of Mr. Md. Mizanur Rahman, Deputy Director General, BBS and Mr. Ghose Subabrata, Director, FA & MIS, BBS during development of the Document.

The regional and upazila statistics offices of BBS actively participated in preparation of the report. I thank them all. Finally, I thank Mr. Nasir Uddin Ahmmed, Deputy Director & Focal Point and staff members of Bangladesh Bureau of Statistics for their untiring efforts in making the 'District Statistics 2011' a success. Through user's interaction and feedback, we hope to improve the coverage and quality of information contained in this edition. Any suggestion for improvement of the publication will be highly appreciated.

Dhaka
June, 2013

Golam Mostafa Kamal
(Additional Secretary)
Director General
Bangladesh Bureau of Statistics

Acknowledgement

The report on ‘District Statistics 2011’ is the result of the initiative of the honorable Secretary, Statistics and Informatics Division (SID). Ex-Director General Mr. Md. Shahjahan Ali Mollah and the present Director General Mr. Golam Mostafa Kamal of Bangladesh Bureau of Statistics (BBS) have guided us in every steps of the journey to whom we remain grateful.

All the data providers of different offices/organizations of respective district and upazila deserve special thanks for their cooperation. We will be in need of such cooperation in future too and hope that the same hospitality will be received from them again.

I gratefully acknowledge the contribution of all members of Editors’ Forum and also of Project Directors’ Forum of BBS in editing this compilation work.

I acknowledge the contribution of Begum Aziza Parvin, Director, Computer Wing, Mr. Md. Mofizul Islam, Programmer and the members of data entry team.

I remember and acknowledge the hard work of Mr. Nasir Uddin Ahmmed, Deputy Director as well as Focal Point Officer for this activity. My sincere thanks also go to the respective Regional Statistical Officer, Upazila Statistical Officers and the employees of BBS.

I acknowledge the work of Mr. Md. Abdul Mannan, Administrative Officer, Mr. Mohammad Abdullah, Assistant Statistical Officer, Mr. Md. Yeasin Miah, Statistical Investigator and Mr. Abdul Malek, DEO for their sincere assistance to the Focal Point Officer in many possible ways. Officers and staff of Reproduction, Documentation and Publication Section of FA & MIS have contributed in printing the report in possible shortest time.

Finally, I want to be submissive that this work of compiling data from various secondary sources at district and upazila level is undertaken after a long time gap of almost 25 years. Some errors or unwilling mistakes may remain there in spite of our full hearted endeavor to make it an error free publication. It will be highly appreciated if any user kindly communicates any shortcomings of the report.

<i>Chapter 1: Introduction</i>		
	District at a Glance	3
	Concepts and Definitions	7
<i>Chapter 2: General Information</i>		
2.01	Broad classification of area 2011	13
2.02	Number of municipality, union, mauza, mahalla and village 2011	13
2.03	Number of household, population and density 2011	14
2.04	Population and literacy rate of 1981, 1991, 2001 & 2011 and number of voters 2011	14
2.05	Population by religion 2011	15
2.06(a)	Percentage distribution of population (10 years and above) by marital status 2011.....	15
2.06(b)	Percentage distribution of population (10 years and above) by marital status 2011.....	16
2.07	Percentage distribution of population by type of disability 2011.....	16
2.08	Number of religious institutions by upazila 2011	17
2.09	Number of pond, dighee, flood camps/shelter, cyclone shelter, stadium/ playground, park/ amusement park 2011	17
2.10	Number of filling station, fire service station, police station/ camp, union land (tohsil) office, BOP (BGB camp), cyber cafe 2011	18
2.11	Number of growth centre, hat /bazar, poultry farm, dairy farm, nursery, horticulture centre, brick kiln, decorator services 2011	18
2.12	Name of land/river port, important or historical or tourist places/objects, important/famous crop or food production 2011	19
<i>Chapter 3: Meteorology</i>		
3.01	Temperature, rainfall, humidity in the following years	23
3.02	Occurrence of river erosion during year 2008 -2011.....	23
<i>Chapter 4: Agriculture</i>		
4.01	Number of agriculture holding by tenure	27
4.02	Land area based on utilization by upazila 2008	27
4.03	Land utilization (temporary cropped area) by upazila 2008	28
4.04	Land area under irrigation for selected crops 2008	28

4.05	Cropped area sprayed with plant protection measures 2008	29
4.06	Number of holding reporting cattle head 2008	29
4.07	Number of holding reporting selected livestock species 2008	30
4.08	Selected poultry/bird 2008	30
4.09	Area of high, medium and low land 2008	31
4.10	Broad soil classification 2008	31
4.11	Number of low lift pump scheme 2010-11	32
4.12	Number of deep tube-well scheme 2010-11.....	32
4.13	Number of selected agricultural machine 2009.....	33
4.14	Use of fertilizer 2010-11	33
4.15	Distribution of chemical fertilizer 2010-11	34
4.16	Area and production of rice crops 2010-11	34
4.17	Area and production of rice crops 2009-2010	35
4.18	Area and production of wheat, jute and sugarcane crops 2010-11	35
4.19	Area and production of wheat, jute and sugarcane crops 2009-10	36
4.20	Area and production of lentil (masur), mug and maize crops 2010-11	36
4.21	Area and production of lentil (masur), mug and maize crops 2009-10	37
4.22	Area and production of pulses by type 2010-11	37
4.23	Area and production of potato by type 2010-11	38
4.24	Area and production of potato by type 2009-10	38
4.25	Area and production of oilseeds by type 2010-11	39
4.26	Area and production of oilseeds by type 2009-10	39
4.27	Area and production of pepper, onion and garlic 2010-11	40
4.28	Area and production of pepper, onion and garlic 2009-10	40
4.29	Area and production of turmeric and ginger 2010-11	41
4.30	Area and production of turmeric and ginger 2009-10	41
4.31	Area and production of tomato, radish and bean 2010-11	42
4.32	Area and production of tomato, radish and bean 2009-10	42
4.33	Area and production of pumpkin, parble (potol) and cabbage 2010-11	43
4.34	Area and production of pumpkin, parble (potol) and cabbage 2009-10	43
4.35	Area and production of brinjal, lady's finger and arum 2010-11	44
4.36	Area and production of brinjal, lady's finger and arum 2009-10	44
4.37	Area and production of cauliflower and cucumber 2010-11	45
4.38	Area and production of cauliflower and cucumber 2009-10	45
4.39	Area and production of papaya, guava, lime and lemon 2010-11	46
4.40	Area and production of papaya, guava, lime and lemon 2009-10	46
4.41	Area and production of jackfruit, banana and pineapple 2010-11	47
4.42	Area and production of jackfruit, banana and pineapple 2009-10	47
4.43	Area and production of mango, litchi and blackberry 2010-11	48
4.44	Area and production of mango, litchi and blackberry 2009-10	48
4.45	Area and production at water melon/melon (bangi) in following years	49
4.46	Number and area of pond, dighee and other watery area 2010-2011.....	49

Chapter 5: Industry

5.01	Number of selected industry by upazila 2011	53
5.02	Number of jute mill and worker 2011	53

5.03	Number of handloom establishment 2011	54
5.04	Employment status in handloom industry 2011	54
5.05	Number of small scale and cottage industry 2011	55
5.06	Number of establishment in cottage industries and person engaged 2011	55
5.07	Number of bamboo and cane industry and person engaged 2011	56
5.08	Number of wooden furniture shop and person engaged 2011	56
5.09	Number of Saw mill and person engaged 2011	57
5.10	Number of auto rice mill and person engaged 2011	57
5.11	Number of semi-auto rice mill and person engaged 2011	58
5.12	Number of rice mill and person engaged 2011	58
5.13	Number of oil mill and person engaged 2011	59
5.14	Number of bakery and person engaged 2011	59
5.15	Number of pottery and person engaged 2011	60
5.16	Number of printing press and person engaged 2011	60
5.17	Number of tailoring shop and person engaged 2011	61
5.18	Number of garment (export oriented) factory and person engaged 2011	61
5.19	Number of cold storage and capacity in following years	62
5.20	Number of flourmill and person engaged 2011	62
5.21	Number of plastic industry and person engaged 2011	63

Chapter 6: Education

6.01	Literacy (7+ years) rate of 2001 & 2011	67
6.02	Number of Government primary school, teacher and student 2011	67
6.03	Number of registered primary school, teacher and student 2011	68
6.04	Number of private (non-registered) primary school, teacher and student 2011	68
6.05	Number of kindergarten school (pre schooling), teacher and student 2011.....	69
6.06	Number of NGO school, teacher and student 2011	69
6.07	Number of Government secondary school, teacher and student 2011.....	70
6.08	Number of Non-government secondary school, teacher and student 2011	70
6.09	Number of school & college (operating jointly), teacher and student 2011	71
6.10	Number of Government college, teacher and student 2011	71
6.11	Number of Non-government college, teacher and student 2011.....	72
6.12	Number of madrasah, teacher and student under the madrasah education board 2011	72
6.13	Number of kawmi madrasah, teacher and student 2011.....	73
6.14	Number of ebtedayee madrasah 2011	73
6.15	Number of technical and vocational institution, teacher and student 2011	74
6.16	Number of medical college, teacher and student 2011	74
6.17	Number of agriculture college, teacher and student 2011	75
6.18	Number of engineering college, teacher and student 2011	75
6.19	Number of university, teacher and student 2011	76

Chapter 7: Health and Social Welfare

7.01	Number of Government health complex and health personnel 2011	79
7.02	Number of private hospital, clinic and related health personnel 2011	79
7.03	Number of diagnostic centre and related health personnel 2011	80

7.04	Number of physician/practitioner in the upazila 2011	80
7.05	Number of union health centre providing health and family planning service 2011	81
7.06	Number of existing family planning personnel 2011	81
7.07	Status of family planning activity 2011.....	82
7.08	Number of co-operative society and member 2011	82
7.09	Number of Government office, post office, bank, NGO's and dak-banglow/rest house 2011	83
7.10	Number of cinema hall, registered club, auditorium and orphanage 2011	83
7.11	Number of cold storage, seed store and club 2011	84
7.12	Number of hat/bazaar, growth centre, hotel & restaurant 2011	84

Chapter 8: Transportation and Communication

8.01	Length of metalled, semi metalled and unmetalled road 2011	87
8.02	Length of railway, water way 2011	87
8.03	Number of bridge and culvert 2011	88
8.04	Number of railway station, steamer/launch station and bus stand 2011	88
8.05	Number of registered rickshaw, van, easy-bike and auto-rickshaw 2011	89
8.06	Number of unregistered rickshaw, van, easy-bike and auto-rickshaw 2011	89
8.08	Number of customer care service centre by cell phone operator 2011	90

Chapter 9: Price and Wages

9.01	Average price of selected item 2011	93
9.02	Annual average wholesale price of selected building materials 2011	93
9.03	Daily average wage rate of agricultural labour 2011	94
9.04	Daily average wage rate of construction labour 2011	94
9.05	Daily average wage rate of non-agricultural labour 2011	95
9.06	Average doctor's fee per patient 2011	95
9.07	Average rate of vehicle per kilometer per person 2011	96

Chapter 10: Urban Area Statistics

10.01	Number of ward, mahalla and household by municipality 2011	99
10.02	Population and density by municipality 2011	99
10.03	Number of primary school, teacher and student by municipality 2011	100
10.04	Number of secondary school, teacher and student by municipality 2011	100
10.05	Number of school & college (operating jointly), teacher and student 2011	101
10.06	Number of college, teacher and student by municipality 2011	101
10.07	Number of vocational institute by municipality 2011	102
10.08	Number of family planning clinical centre by municipality 2011	102
10.09	Number of family planning personnel working by municipality 2011	103
10.10	Number of fire service unit and casualty by municipality 2011	103
10.11	Cinema hall with audience capacity by municipality 2011	104
10.12	Number of pharmaceutical industry by municipality 2011	104
10.13	Medical institution and personnel by municipality 2011.....	105
10.14	Number of published newspaper & television centre 2011.....	105

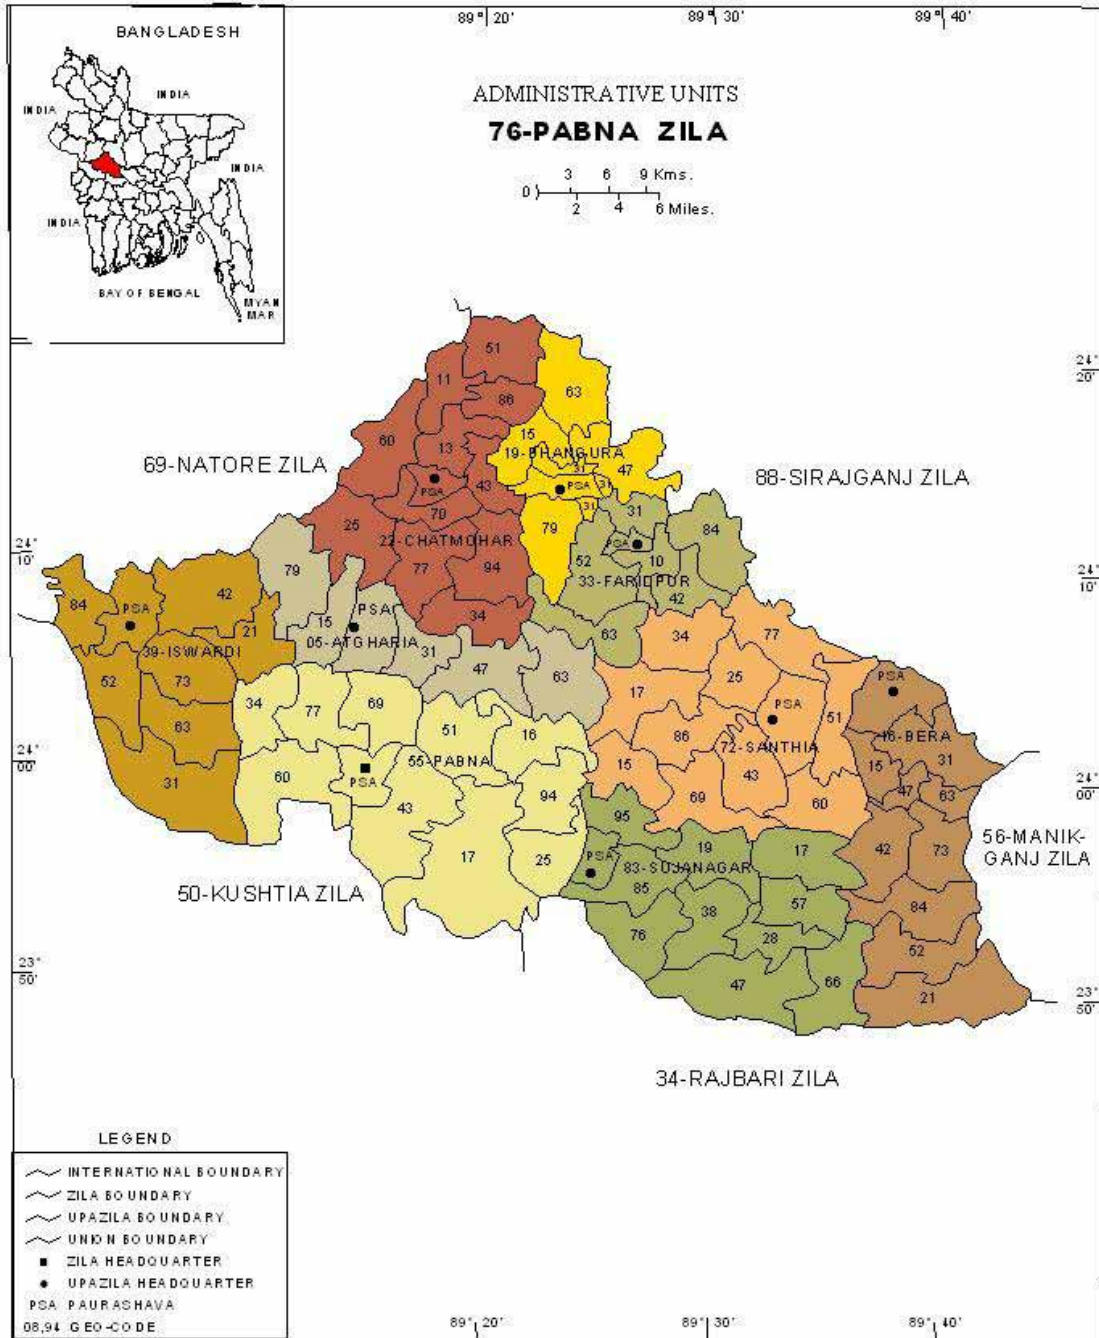

Chapter 11: Public Administration, Accounts and Banking

11.01	Upazilawise sanction post of Government employee by category 2011	109
11.02	Upazilawise existing position of Government employee by category 2011.....	109
11.03	Upazilawise number of employee by type 2011.....	110
11.04	Number of branch of nationalized commercial bank 2011.....	110
11.05	Number of branch of private commercial bank 2011	111
11.06	Number of branch of specialized (Krishi, Co-operative etc.) bank 2011	111
11.07	Number of branch of Grameen bank 2011	112
11.08	Number of insurance company 2011	112
11.09	Number of co-operative society 2011	113
11.10	Number of money exchange agency 2011	113

Chapter 12: Miscellaneous

12.01	Government health complex and health facility 2011	117
12.02	Number of Non-government health complex and health facility 2011	117
12.03	Number of person borrowing money from nationalized bank 2011	118
12.04	Number of person borrowing money from private commercial bank 2011	118

CHAPTER: 1

Introduction

District at a Glance

Background, Geographic Area and Location: Pabna, one of the oldest districts of Bangladesh, was established in 1832. Pabna Sadar sub-division of the greater Pabna district was up-graded to a district in 1984. Nothing is definitely known about the origin of the district name. According to Cunningham, a renowned archaeologist, the name Pabna might have been derived from the old kingdom Pundra. The popular belief is that the district might have originated its name from the name of a stream Pabnaee which was flowing by the southern side of this land towards the Ganges. It is bounded on the North by Natore and Sirajganj districts, on the east by Manikganj district and the river Jamuna on the south by Rajbari and Kushtia districts and the river Padma and on the west by Natore districts. It lies between 23°48" and 24°21" north latitudes and between 89°00" and 89°44" east longitudes. The total area of the district is 2,376.13 sq. km.

Administration: The area of the Pabna municipality is 18.64 sq km. The only mental hospital of Bangladesh, established in 1957, is located in the Pabna municipality. The district consists of 9 upazila, 73 unions, 1321 mauzas, 1562 villages, 9 paurashavas, 87 wards and 234 mahallas. The upazila are Atgharia, Bera, Bhangura, Chatmohar, Faridpur, Ishwardi, Pabna Sadar, Santhia and Sujanagar.

Climate: The district bears a moderate and pleasant climate. The temperature, humidity and coldness of the district are not high. The summer season commences from April and continues up to the end of June. The rainy season comes at the end of June and stays up to September. The winter season starts from the middle of November and lasts up to the end of February. The minimum and maximum mean temperature during winter varies from 16.5°C to 19.0°C. During summer the minimum and maximum mean temperature, vary from 25.5°C to 37.7°C. The rainfall is heavy during July to September. The annual rainfall of the district recorded in 2011 was 1736 millimeters. The level of humidity was about 76.8% in April and about 85% in July.

River System: A number of rivers and canals flow over the district. The main rivers flowing through Pabna district are the Jamuna, the Padma, the Ichhamati, the Baral and the river Atrai. There are some other rivers flowing through the district but they become almost dry in summer and are not navigable except in the rainy season. The Padma and the Jumuna are the biggest rivers of the country, they navigable throughout the year. The Ichamati, the Hurasagar, the Baral and the Chiknai are distributories which originate from a big river and fall into another. Total flowing length of the rivers in the district is about 247 km. It occupies an area of 122.13 sq. km. which is 5.15% of total area of the district.

Soil Condition: The soil of the district is mainly covered with recent and sub-recent sediments consisting of sandy clay and sand along the course of rivers. The Jamuna and the Padma influence to make the soil alluvium. The southern region of the district is dominated by the very young and actual meander floodplains. The floodplains contain the silty clay alluviums, which is calcareous. The eastern part of the district is covered by the Jamuna alluviums, which are alkaline. In the northern areas karotoya floodplains are mixed with dark grey silty clay loams and the soils are chemically Non-calcareous.

Archaeological Heritage and Relics: Three domed Mosque at Bharara (1176 AH), three domed Kazipara Mosque (Bhangura), Chatmohar Shahi Mosque (989 AH), Pathanpara Khandokarni Mosque (built by the Afghans, Chatmohar), Samaj Shahi Mosque (958 AH), three domed Jami Mosque at Juktitala (Ishwardi), Jor Bangla Mandir (eighteenth century, Pabna), Jagannath Mandir, Seth Kuthi (1779), Snana Mandir (Chatmohar) and Pabna District Judge Court Building (1884).

Historical Events: Once the present area of the Pabna district was a part of the ancient Pundrabardhana. Although established in 1832 the contours of the district has been changed many times. The major changes of the boundaries of the district took place in 1877 and 1881 with the major changes of the courses of the

rivers Padma and Jamuna. In the 1980s greater Pabna district was divided into two districts namely Pabna and Sirajganj.

Marks of the Liberation War: Mass grave 4, mass killing site 6, memorial 8.

Main Crops: Paddy, jute, wheat, sugarcane, oil seeds, onion, garlic, betel leaf, pulses. Extinct or nearly extinct crops Indigo, sesame, linseed, kaun, china and arahar.

Main Fruits: Mango, jackfruit, banana, litchi, coconut, guava and papaya.

Traditional Transport: Palanquin, horse carriage and bullock cart. These means of transport are either extinct or nearly extinct.

Economic Situation: The economy of Pabna district is predominantly agricultural and cottage industry based (weaving and thread work). Weaving and thread work is the important source of income of the people of the district. In Pabna district out of 533,209 holdings 53.06% holdings are farm, which produce varieties of crops, namely, local and HYV aus, aman, boro, wheat, pulses, oil seeds, sugarcane, spices and condiments, vegetables and other minor crops. Livestock farming is another important source of income of the people of Pabna district. Various fruits like mango, jackfruit, litchi, jam, palm, banana, guava, watermelon etc are grown in Pabna district. Varieties of fish are caught from rivers, beels and paddy fields during rainy season. The most common fishes are ruhi, katal, mrigel, magur, singi, koi, puti, shoil, gozar, boal etc. There are some other varieties of fish are pangas, airh, chingri, batasi, bacha, kholisha, rita etc. All these fishes are economically valuable. Besides crops, livestock and weaving are also the main sources of household income of the people of Pabna district.

Economic Census 2001 & 2003, the following table shows the total establishments in the rural and urban areas and persons engaged by sex and activities in Pabna district. According to the table below there are total of 61,293 establishments in the district in which 198,984 persons are engaged in different types of Non-farm activities. Female participation in Non-farm activities is very poor (9.65%) in Pabna district. The table shows that establishments and persons engaged in construction and electricity, gas and water supply sector are also poor.

Number of Establishments and Persons Engaged

Code	Activity	Establishments			Persons Engaged		
		Total	Urban	Rural	Total	Male	Female

Pabna District		61293	18737	42556	198984	179786	19198

Flora: Pabna district is located almost at the middle of Bangladesh. It is surrounded by Serajganj district on the north, Natore district on the west, Kushtia and Rajbari districts on the south and the river Jamuna on the east. Obviously, growing of plants and trees in the district is influenced by all these districts. Depending on environmental conditions, a large number of natural vegetation grows in the district. In the limited char areas, which are frequently eroded and rebuilt, the variety is limited to a few.

Jhau (*Casuarina equisetifolia*) is a common plant of the uncultivable lands of the chars and is much needed for fuel and fodder during the rainy season. Besides, agricultural crops and plantations grow well in the chars. The marshes in the district yield reeds in large quantities, which are used for house building purpose and as well as for firewood. A small prickly fruit 'Senkhur' is also found in them and is highly esteemed by the people.

Uncultivated areas are covered by abundant natural vegetation. Abandoned riverbeds, ponds and marshes as well as streams with a sluggish current have usually thick growth of herbaceous plants such as vallisneria (*Syala*), potamogeton, enhygra and utricularia etc. Areas subject to inundation have generally a covering of tamarix, a shrub that grows generally on river banks or beds of Northern part of the country variously known as jhau (*Casuarina equisetifolia*), ban-jhau, lal-jhau etc. and reedy grasses. Among other aquatic plants, the following are commonly found, two types of waterlily (*Nymphaea pubescens*), namely, Jati shaluk and Sindhu shaluk, helancha (*Tilantha philoxroidex*), bagha-helancha, checkra, deo-dhan, bhura-dhan, shonda etc. Most of these plants are the source of various edible products of the local people. The shonda, however is used for making mats.

The country side is wooded with bamboo clumps (*Bambusa bambus*), banyan (*Ficus benghalensis*), papal (*Ficus religiosa*), babul (*Acacia arabica*), red cotton (*Salmalia malabarica*), jack-fruit (*Artocarpus heterophyllus*), bel (*Aegle marmelos*), tamarind (*Tamariandus indica*), coconut (*Cocos nucifera*) and date-plam (*Phoenix sylvestris*). The villages are generally surrounded by thickets and shrub berries of semi-spontaneous and more or less useful trees, while waste lands are, for the most part, covered with grasses such as ulu (*Imperate cylindrica*) and charakanta (*Chrysopogon aciculatus*). Besides these, plants locally known as mashna, black pea, spices such as vandhun, gua-mauri, etc. are grown abundantly in the district.

On the western side of the Baral Bridge, there is a large tract of low lying areas present where grasses are grown abundantly which can support many cattle throughout the year.

The main timber trees are the mango (*Mangifera indica*), jack-fruit (*Artocarpus heterophyllus*), jam or blackberry (*Syzygium cumini*), cotton tree (*Bombax ceiba*), neem (*Azadirachta indica*) and pitraj (*Aphanamixls polystachia*). Their wood is used for making doors, windows and household furniture. The wood of the babul is largely used for cart wheels. Bamboos (*Bambusa bambus*) are abundant and furnish the most common materials for house building.

In addition to these, a jungle plant called jhau, extensively used as fuel grows in several parts of the district and is a source of income of some people. There is No forest but there are extensive patches of jungles in some parts of the district.

Fauna: In the 19th century deer (*Muntiacus muntjak*), buffalos (*Bubalus bubalis*), wild boars (*Sus scrofa*), leopards (*Panthera pardus*) and wild boars (*Sus scrofa*) were plentiful in the district. But along with the passage of time, deer (*Muntiacus muntjak*), wild buffaloes (*Bubalus bubalis*) have disappeared with the advancement of cultivation while leopards (*Panthera pardus*) and wild boars (*Sus scrofa*) have vanished into the village jungles. They are still found in the river chars. Jackals (*Canis aureas*), the jungle cats (*Felis chaus*), foxes (*Vulpes bengalensis*), hares (*Orvetolagus cuniculus*) and squirrels (*Callosciurus pygerythres*) are some of the common mammals.

There is an abundance of aquatic birds in the district. During the winter several kinds of geese and ducks (*Cairina sen tulata*) visit the district. Among them, the grey-leg goose, bare headed goose (*Anser indicus*)

black-backed goose, the pintail (*Anas acuta*), sheldrake, shoveller, gad wall, pochard, mallard and spotted billed duck (*Cairina sen tulata*) and the familiar brahmini duck (*Fadorna farruginea*) are ordinarily seen in the chars of the Padma and the Jamuna. Teals of various types and snipes are also found. Other waterbirds like herons (*Nycticorax*), storks (*Ephippias hynchus*), coots, moorhens snippets, kingfishers (*Alcodoathis atthis*) dabchiks are numerous. Of other game birds, those that are found only on land are many in number, Plover and green pigeon (*Treron phoenicoptera*) are frequent and the common gray quail and button quail are occasionally shot. Black partridges are also seen. Besides these common birds, the different species of kites (*Milvus migrans*), vultures (*Gyps bengalensis*), eagles (*Accipiter badius*), buzzards, doves (*Emerald dove*), cuckoos (*Cuculus microplerus*) as well as mynas (*Gracula religiosa autra*), king-crows (*Dicrums adsimilis*), crows (*Corvus splendens*), fly-catchers including the paradise fly-catchers, shrikes, swallows (*Copsychus saularis*), swifts, bee-caters, flower-peckers and many other small resident and migratory birds are will represented in the district.

Fish abound in most of the rivers and beels and very large catches of hilsa (*Hilsa ilisa*) are made in the Padma in the rainy season. The hilsa (*Hilsa ilisa*) of Padma and especially those that are caught near Saraghat are very delicious and are in great demand. The hilsa caught in this portion of the Padma are sent to the whole of North Bengal as well as to the other parts of the country.

Concepts and Definitions

Population and Housing Census 2011

The population and housing census is the unique source of reliable and comprehensive data about the size of the population of the country, major socio-economic and socio-demographic characteristics.

It is the total process of collecting, compiling, evaluating, analyzing and publishing or otherwise disseminating demographic, economic and social data pertaining, at a specified time, to all persons in a country. The essential features of a population census are individual enumeration, universality within a defined territory, simultaneity and defined periodicity.

The population and housing census provides information on the geographic and administrative distribution of the population and household in addition to the demographic and socioeconomic characteristics of all the people in the country. The data from the census are classified, tabulated and disseminated so that political leaders, election officials, planners, national organizations including NGOs and civil society, regional and international organizations can use the data in decision-making.

The purpose of community report is to disseminate census data by communities (ward/mahalla in urban area and union/mauza/village in rural area). Data on all key variables namely area, household, population by sex and age group, ethnic population, literacy rate, marital status, school attendance, employment status and religion as well as physical facilities such as source of drinking water, sanitation, electricity and dwelling units have been presented in this report. The planners, researchers and policy makers as well as development partners and community administrators will find this report as a valuable reference for use in advising plans and programs for advancing welfare and well-being of the common people, in particular and the community in general.

Household

Persons, either related or unrelated, living together and taking food from the same kitchen constitute a household. A single person living and eating alone forms one-person household.

Literacy

It denotes ability to write a letter in any language. Literacy status assessment is made for population 7 years and over.

Community

It refers to the following five lower geographic, administrative or revenue units:

- i) **Union:** Smallest administrative rural geographic unit comprising of mauzas and villages and having union parishad institution.
- ii) **Mauza :** Mauza is the lowest administrative unit having a separate jurisdiction list number (J.L. No.) in revenue records. Every mauza has its well-demarcated cadastral map. Mauza should be distinguished from local village since a mauza may consist of one or more villages.
- iii) **Village:** Lowest rural geographic unit either equivalent to a mauza or part of a mauza.
- iv) **Ward:** Smallest administrative urban geographic unit comprising of mahallas and having ward council institution.
- v) **Mahalla:** Lowest urban geographic unit having identifiable boundaries.

Urban Area

It corresponds with area developed around a central place having such amenities as metalled roads, improved communication, electricity, gas, water supply, sewerage, sanitation and also having comparatively higher density of population with majority population in non-agricultural occupations.

i) City Corporation: It includes city corporation area declared by the Ministry of Local Government.

ii) Paurashava/Municipality Area: It includes paurashavas incorporated and administered by local government under Paurashava Ordinance, 1977.

Agriculture Census year and reference period

The census year extends over twelve consecutive months having for different census items the different reference periods or days of data collections. Some items have a year or week reference period. Some others have a specific reference day.

The census year covered twelve months from 1 Baishak to 30 Choitra, 1414 Bangla Shal (BS). This year was the reference period for such census items as operated land use, crops, agriculture employment, livestock & poultry deaths and agriculture loan. A single reference day was used for items like holdings, farm size, land tenure, farm population, livestock & poultry inventories and agriculture implements.

The different census items by their reference periods or days are shown below:

Agriculture holding

An agriculture holding is a techno-economic unit of agricultural production under single management comprising all livestock kept and all land used wholly or partly for agricultural production purposes without regard to title, legal form or size. Single management may be exercised by either an individual holder or jointly by two or more individuals or holders or by a judicial person such as a corporation, co-operative or government agency. A holding may consist of one or more parcels (fragments of land) located in one or more areas or mauzas or in more than one administrative unit or division provided that all separate parcels of fragments form parts of same technical unit under operational control of same management.

The definition covers practically all holdings/households engaged in agricultural production of both crops and livestock. Some agriculture holdings may have no significant agricultural land, e.g. holdings keeping livestock, poultry and hatcheries for which land is not an indispensable input for production.

Farm holding

A farm holding is defined as being an agricultural production unit having cultivated land equal to or more than 0.05 acres. Farm holdings are classified into following three broad groups:

(a) **small:** Farm holdings having minimum cultivated land 0.05 acre but operated land more than this minimum but upto 2.49 acres.

(b) **medium:** Farm holdings having operated land in between 2.50 to 7.49 acres.

(c) **large:** Farm holdings having operated land 7.50 acres and above.

Small cultivated land 0.04 acre or less is generally used for kitchen garden growing mainly vegetables. Often seeds of white gourd, water gourd, pumpkin and other strains are sown on households; but these creepers spread out around house roofs and other structures. As such, the minimum cultivated land considered for qualifying to be a farm holding is 0.05 acres.

Non-farm holdings

A non-farm holding is defined as being the one which has neither cultivated nor operated land or has cultivated land less than 0.05 acre.

Tenancy

Owner holdings are those having and operating their owned land and who may or may not be leasing out land.

Tenant holdings are those having no owned land but operating land taken from others on share cropping basis or on other terms.

Owner-cum-tenant holdings are those having owned land and who may or may not be leasing out their own land to others and who may be taking land from others on share cropping basis or on other terms.

Agriculture work

Agriculture work signifies all activities of holder and his/her labour force doing planning, management, and operation of a holding. It includes land preparation, sowing, weeding, harvesting, feeding and tending livestock & poultry, kitchen gardening, supervising agricultural workers, keeping farm records & accounts, preparing agriculture products for marketing (including packaging), repairing farm equipment, constructing farm buildings & fences, and engaging in land reclamation and improvement and other related activities. It excludes home and other family domestic chores.

Area under pond

The pond area remains under water almost through out the year. Normally, households use pond water for various domestic and sometimes agriculture purposes. Ponds are also generally used for fish culture.

In the census the pond area data were collected separately for both single ownership and joint ownership of households.

Area under temporary crops

It is the land area planted to crops having growing cycle or length of life less than one year. These are the temporary crops such as paddy, wheat, jute, cotton, tobacco, sugarcane, pulses, oil seeds, potato, vegetables and other seasonal crops. A list of temporary crops for which data were collected separately was given in back page of "Tally Sheet". The minimum area recorded for a temporary crop was 0.01 acre. Area under temporary crops and temporary-crops net area are equivalents.

Area under permanent crops

It is the land area planted to crops which remain standing for a long period of time and do not need to be replanted after a seasonal harvest. Mango, jackfruit, coconut, guava, lemon, and other fruit varieties are all permanent crops.

Current fallow

It is land brought into cultivation but left out uncultivated in census year for fertility regaining and improvement or for other reasons.

Net cultivated area

This is land area actually cropped during the census year regardless of number of crops grown plus current fallow. It includes areas under temporary and permanent crops and also current fallow.

Permanent fallow

It is land not available for cultivation due to coming into residence and commercial & other uses. Play ground, graveyard, wild shrubs and jungles, marshy land, and the like fall in this category.

Irrigated area

This is area of total land brought under irrigation coverage for growing crops with irrigations done through mechanical or manual means. Irrigated area classifications fall into two categories: (1) surface water irrigation with main water sources being rivers, canals, beels, ponds, and other water bodies; and (2) underground water irrigation with water lifted by shallow tube-wells, deep tube-wells, and country traditional devices. The irrigation equipments are run by electricity, diesel or petrol, or manual labour.

Cattle and Buffalo

Cattle and buffalo heads owned by households on day of enumeration were counted.

Goats and Sheep

Goats and sheep owned by households on day of enumeration were counted.

Fowls, Ducks, and Pigeons

Fowls, ducks, and pigeons owned by households on day of enumeration were counted.

Temporary crops gross area

Areas aggregated for all temporary crops grown in the census year have made **temporary crops gross area** greater than **temporary crops net area** since the latter has within it the same land cropped more than once in different seasons of a year.

Intensity of cropping

It is percentage of temporary crops gross area in comparison with temporary crops net area. It is expressed as follows:

$$\text{Intensity of cropping} = \frac{\text{Temporary crops gross area}}{\text{Temporary crops net area}} \times 100$$

Cereals

Main cereals are rice and then wheat. Other cereals are jowar, barley, cheena, maize, kaun, bajra and jowar.

Pulses

Main and common pulses are gram, mung, lentil, arhar, gari kalai, khesari and pea.

Oil seeds

Main oil seeds are rapeseed and mustard, sesamum, linseed, groundnut, soybean, sunflower and castor.

Vegetables

Farmers grow both summer and winter vegetables. Main vegetables are potato, brinjal, radish, arum, lady's finger, cauliflower, cabbage, bean, tomato, patal, gourd, cucumber, pumpkin, knoll-kal-turnip, dhundal, barbati, khirai, chichinga, carrot, kakrol and sak.

Cash crop

Main cash crops are jute, mesta, sunhemp, cotton, sugarcane and tobacco.

Spices

The main spices include turmeric, ginger, chillies, onion, garlic, coriander, black cumin and aniseed.

Fuel crops

Dhaincha and other smaller plants used as cooking-fuel are included in the group.

CHAPTER: 2

General Information

General Information

2.01 Broad classification of area 2011

(In sq. km.)

Upazila	Total area	Land area	Reserve forest	Riverine area
